Win8/10/11 可以使用最新版的 logic2(支持 Win8 以上的系统)系列软件。

Win7 以及更老的系统使用 Logic1 系列的软件，这里以下载 1.2.18 为例，其他版本类似。

Logic 1.x Download

Starting October of 2022, Saleae has released a new hardware revision of our analyzers, starting with Logic Pro 8, which requires the latest version of the Logic 2 software available here.

Unfortunately, this newer revision of the hardware will no longer work with our legacy Logic 1.x software.
